▶ OUTDOOR WELDING

When welding in the open air it is important to be protected from all kinds of weather, such as rain, wind, sun, etc. Working conditions are noticeably improved if a welding tent or welding umbrella is used. This level of protection for the welder has proved to contribute to a reduction in sick leave.

▶ Available products

The CEPRO outdoor welding program is divided into 2 product groups which are suitable for various applications.

- **CEPRO welding tents**

Our welding tents are extremely suitable for work in the open air. Work can be continued for longer periods and due to the improvement of working conditions, sick leave will be greatly reduced.

- **CEPRO welding umbrellas**

Our welding umbrellas are specially designed for working outdoors. They provide reliable temporary protection of the work site from sun or rain.
