COMPANY PROFILE

Weldone Srl is an Italian company operating in the field of technical industrial supplies and more specifically in providing **“Products and Services in the welding and cutting domain”**.

Weldone was able to take up the challenge of combining the **enthusiasm** of a recently formed company, with the **experience** and determination of those who've been working in the business for a long time.

Born in march 2017, Weldone Srl is based on an over twenty-five years old experience of its founders and on the proficiency and expertise of every coworker as well as on the support of prestigious companies exclusively represented.

Weldone Srl benefits from **trained and qualified staff** for both back office and logistics as well as for sales and technical assistance, jewels in the crown of the offered services.

Weldone Service guarantees to the customers practical demonstration of the machines, multi-brand repairs, scheduled maintenance, calibrations and insulation checks of the welding machines. Precise reports and release of certifications in compliance with EN standards are also part of our work.

Weldone pays close attention to **ethics** in the relationships with Customers, Suppliers and Collaborators.

WELDONE: YOUR **RELIABLE** PARTNER FOR TECHNOLOGICAL SOLUTIONS IN **WELDING**

Weldone Srl is **located** in Castelleone (CR), in an area of over 2200 m², 1000 of which are covered. The building includes: commercial and administration offices and a room dedicated to training, a **wide warehouse** where materials and machines are stored and ready for delivery, an outdoor yard dedicated to the storage of technical gas cylinders and an equipped and functional **technical service laboratory for repairs, maintenance and calibrations.**

Last, but not least, in Weldone there's a **testing department** for welding systems, including a Cobot station (collaborative robot), also used for welding classes.

The **Weldone Welding School**, with a classroom (for theory lessons) and equipped workstations for practice, only uses teachers of proven skills and experience and fulfills the training offer with the use of Soldamatic, the first and only augmented reality welding simulator, which represents a real innovative method in training professional welders.

Weldone, besides the sale and rental of certified quality products, guarantees to the **end customers** assistance and deliveries on time. A wide **network of retailers** throughout Italy guarantees a professional distribution of the commercialized products, according special attention to the companies of sole representation.
